ARCHITECTURE

The design of the buildings created by the Swiss architects Wild Bär Heule is reminiscent of typical farmhouses from the area, combined with large, modern, light-flooded glass surfaces. Almost 70 works of art such as sculptures by Ernst Barlach as well as works by other renowned artists are waiting to be discovered in the houses and the entire outdoor area.

The groundbreaking for the spectacular project was in March 2018, after only 19 months of construction with mainly regional craftsmen, it opened in October 2019.

The wide view of the Ammergau Valley with a view of Laber, Kofel and Pürschling is breathtakingly beautiful. All rooms in the ensemble were equipped with floor-to-ceiling windows and invite you to experience the untouched nature in the middle of the Ammergau Alps Nature Park with all your senses.

Interior designer Barbara Widmann also succeeded in combining supposed contrasts such as warm wood, gray exposed concrete and black steel into a single entity. Handcrafted furniture, natural materials and inspiring art combine to create a unique design in every room.

BOUTIQUE-HOTEL LARTOR

All twelve rooms in the boutique hotel Lartor are furnished with hand-flattering oak furniture. Oiled oak parquet and soft colors exude a feeling of warmth and comfort. The glass shower tubes are spectacular. Placed in the middle of the room, they bring urban flair from the metropolises of this world to the Bavarian Alps.

Each room has been dedicated to a different fantastic place with great attention to details – indulge in the handpicked artwork, that can be found in each room. The history of each place can be found in the pictures and accessories on display.

Indulge yourself in the "Fountain of Youth", explore the "Land of Milk and Honey", celebrate life around the "Mountain of Venus" or dream of "Olympus" or the "Eldorado".

Fluffy towels and high-quality cosmetics, in-room safe, espresso machine and a kettle, as well as free mineral water complete the luxurious room facilities. Sustainable comfort items, such as slippers made from biologically recyclable materials, as well as the consistent effort to reduce and avoid plastic, are a contribution to a clean environment.

Instead of a minibar, guests will find a self-service bar with drinks, beer and wine, and small snacks across from the community table in the lobby.

Experience pure nature! In the area you can go hiking, climbing, cycling, swimming, as well as all kinds of winter sports, such as cross-country skiing or alpine skiing. The hosts will be happy to put together a personal excursion program according to individual wishes.
